Teak is uniquely handcrafted from the finest Indonesian plantation grown teak. Initially, teak is a golden brown color. This color is derived from the natural oils in the wood. Exposure to the sun will change the color to silver gray. The weathering time varies depending on the amount of exposure to the elements. As the wood weathers, you may notice small cracks, this is called "checking". This is normal and in no way affects the stability and integrity of the furniture. To maintain your furniture requires a periodic cleaning with a soft bristle brush and mild detergent. Do NOT use power washers. There are many commercially available teak protectors; however, Jewels of Java does not recommend nor warrant the use of these products. Jewels of Java does not recommend Teak Oil for outdoor use; it significantly increases the maintenance of your furniture.

All-Weather Rattan is a synthetic material ideal for indoor and outdoor use. While the material will withstand weather and temperature fluctuations, we do recommend storage indoors during the winter months and extreme cold temperatures. Periodic cleaning with a soft cloth and mild detergent is necessary. Limiting sun exposure by covering the furniture when not in use will prolong the viability of the color and prevent fading.

Cushions are made using Sunbrella® fabrics and quick dry foam. While storage is recommended, it is not necessary. Should the cushions get wet, unzip them, stand them on end with the zipper side down to allow them to drain and dry. Refer to the Sunbrella® website for recommended care and cleaning of your fabrics: www.sunbrella.com.

Sling components should be cleaned frequently with a mild detergent and a SOFT brush. Scrub in a circular motion to clean between the fibers. Rinse thoroughly. Do NOT use solvents as they destroy the UV protected quality of the material. Do NOT use power washers.

Stainless Steels need to be cleaned for aesthetic considerations and to preserve corrosion resistance. Routine cleaning will preserve the appearance and integrity of the surface. A soft cloth and clean warm water will remove mild stains and loose soils. A final rinse with clean water and a dry wipe will complete the process and eliminate the possibility of water stains. Infrequent cleaning may result in brown spots on the steel. These spots are cosmetic only and do not effect the integrity of the furniture. They are not covered under warranty.

Jewels of Java is proud to offer an "eco-friendly" product. All of our teak wood is sourced from Perum Perhutani and is certified as 100% plantation grown.

Warranty:
Jewels of Java's manufacturer's warranty is the following:

- **Teak/Stainless Steel:** Three years.
- **All-Weather Rattan:** Three years.
- **Sling Fabric Components:** Two years.
- **Cushions** are warranted against seam separation, fabric slippage, flaws and dye lot variations at the time of delivery only. Sunbrella® fabrics carry a separate manufacturer's warranty as well.

Warranty claims must come through the retailer where the items were purchased.

If an item fails under the terms of the warranty, manufacturer will repair or replace that item. If discontinued, it will be replaced with a similar item. All warranties apply to the original owner only and require dated receipt. Normal wear and tear is excluded. Abuse, acts of nature, accidents or commercial use void this warranty.

Furniture products are made in Indonesia.
Cushions are made in the USA with some imported materials.
