TRAVIRA Stacking Resin Wicker Armchair

MATERIALS

Resin Wicker is made of a synthetic polyethylane material. Durable and elastic, resin wicker will resist weathering and endure. Powder coated aluminum is durable and lightweight. The rust proof nature of the frame offers high quality and strength. Teak has beautiful dense grain and high oil content allowing it to resist rot, moisture, warping and splintering. Tekwood is a wood-alternative developed from polystyrene. Tekwood provides the look of wood without the weathering process or maintenance.
