Description: Pluck wall lamps provide unique functionality from a dramatically poised, lightly scaled silhouette. A crisp-edged, puck-like disc adjusts to desired positions, held with a magnet to a rubberized ball at the end of a thin, flexible arc. Available in two sizes, Pluck wall lamps can swing out for maximum extension or be folded against the wall. The brightness of the LED light source is adjusted by a touch of the dimmer on the puck's top surface. Pluck is also available as a [LED floor lamp](#).
