

LEDUR TW Undercabinet

Selectable CCT & Output Ten Fixtures in One!

LEDUR TW Under cabinet luminaires include two switches to change the color temperature and lumen output. Five color temperature options and two lumen outputs create ten different fixtures in one! The edge-lit placement of the LEDs provides smooth uniform light across the counter surface, eliminating hot spot reflections in granite and other surfaces normally generated by traditional LED under cabinets.

FEATURES

- 120V input with integral dimmable driver
- Ten fixtures in one! (5 CCT options and 2 lumen outputs)
- Five color temperatures in each fixture (2700K, 3000K, 3500K, 4000K or 5000K)
- Two lumen outputs in each fixture (275lm or 475lm per foot)
- Linkable up to 400W
- Available in five different lengths
- Triac or ELV dimming
- Hardwired or Cord Plug
- Dark Bronze or White finish
- Integral captive screws for easy mounting
