Keyboard Arms

- The Encore Arm is an entry level arm that provides most of the features at an economical price
- For occasional users, home office, education, learning and training centers
- Meets or exceeds ANSI/BIFMA requirements
- Made in North America, TAA Compliant
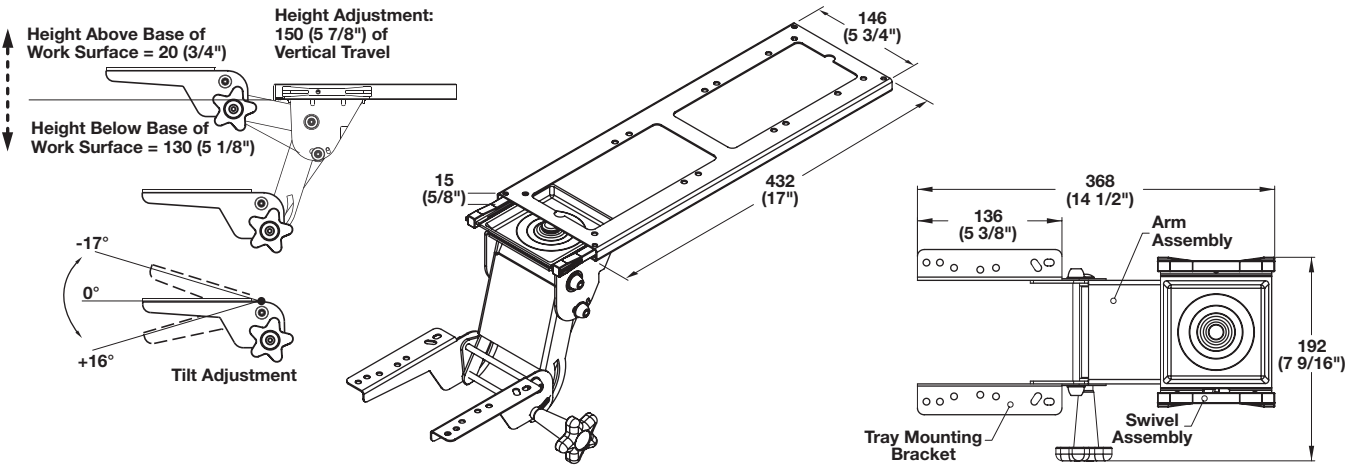

5

Keyboard Arm - Encore

- Low profile design provides maximum leg room
- Star wheel adjustment knob provides simultaneous height and tilt adjustment
- 360° swivel allows user to move keyboard freely from side to side
- Stores on 432 mm (17") plastic glide track

Material: Steel, epoxy-coated; Components: Plastic

Color	Item No.
black	632.68.380

Note

Arm does not include keyboard tray, please order separately, see below options.

Keyboard Arms

- The Duet Arm is a highly stable sit-to-stand unit, which provides an increased work surface area
- This revolutionary product with its sleek design permits the addition of a fully adjustable secondary work surface to most fixed or height adjustable tables
- Offers easy height and tilt changes
- For heavy-use typing/data entry, multi-users or commercial/ industrial installations
- Meets or exceeds ANSI/BIFMA requirements
- Other widths available upon request
- New and improved spring brake mechanism accommodates heavier loads

Weight rating: Counter-balance: 30 lbs.
Total weight capacity of locking function: 150 lbs.

5

**Ellipta® Monitor Arm
for Flat Screen**

More flexibility
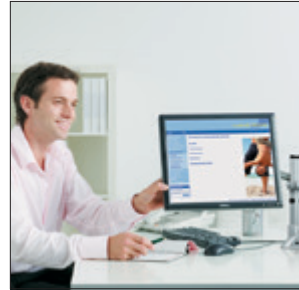

Better communication
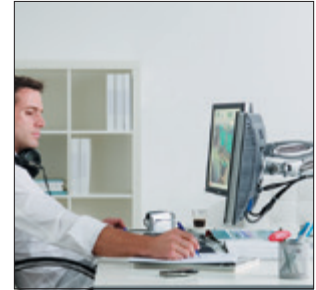

More creative freedom

5
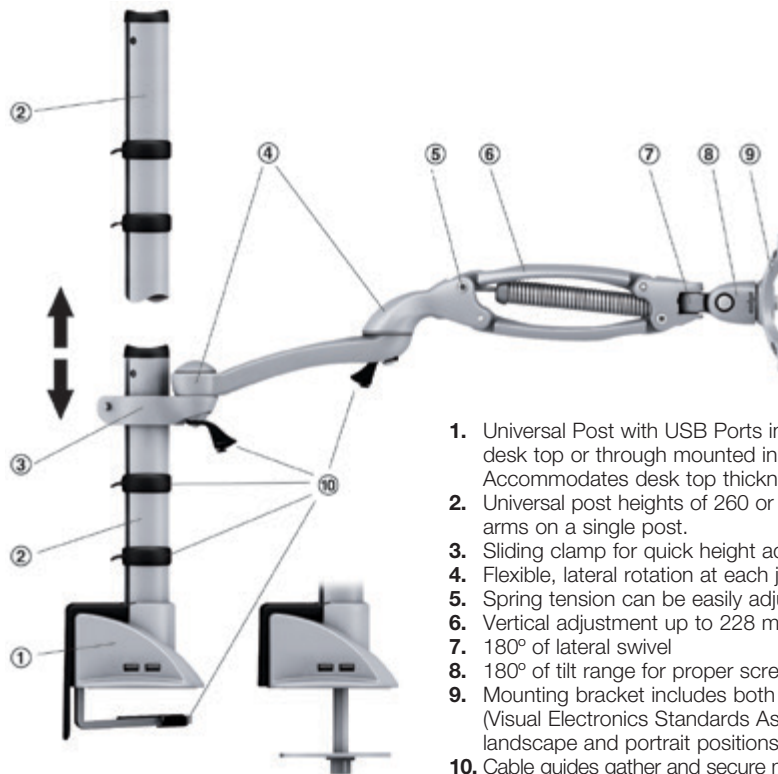

1. Universal Post with USB Ports includes 4 (2.0) USB ports, and can be clamp mounted to desk top or through mounted in a standard grommet hole up to Ø80 mm (3 1/8"). Accommodates desk top thicknesses of 8 to 75 mm (5/16" to 3").
2. Universal post heights of 260 or 570 mm (10 1/4" or 22 1/2") allow for mounting of multiple arms on a single post.
3. Sliding clamp for quick height adjustment without tools.
4. Flexible, lateral rotation at each joint for an unlimited range of settings.
5. Spring tension can be easily adjusted to counterbalance the weight of the monitor.
6. Vertical adjustment up to 228 mm (9") for optimal screen height.
7. 180º of lateral swivel
8. 180º of tilt range for proper screen angle
9. Mounting bracket includes both 75 and 100 mm (3" and 4") patterns to comply with VESA (Visual Electronics Standards Association) mounting standards. Rotate flat screen between landscape and portrait positions.
10. Cable guides gather and secure monitor wires, keeping the work surface clear of unsightly cables.

5

Monitor Suspension System

- Low voltage motor lifts and lowers flat screen monitor in top surface providing a safe, secure, and ergonomic solution for any working environment.
- Fits most flat panel displays up to 21" diagonal or 20" widescreen
- Retractable access doors open and close automatically
- Allows for additional work space when not in use
- Hides confidential information when necessary
- Reduces risk of damage to PC equipment
- Removes monitor from line-of-sight in the submerged position
- Max. dimensions for flat screen monitor (W x D x H): 470 x 356 x 70 mm (18 1/2" x 14" x 2 3/4")
- Weight of flat screen monitor cannot exceed 21 lbs. (9.5 kg)

Note
Standard kits come complete with a viewport which is tinted (T141 rating) and tempered.

Flat Panel Display Arm

- Mounts underneath worksurface to support flat screen monitor on a tension-mounted arm
- Converts existing downview CRT monitor system to flat screen creating space below the worksurface
- Monitor attaches to flat panel arm with VESA compliant steel plate 100 mm (4")
- Weight capacity for monitor: 95 kg (21 lbs.)
- Arm length adjusts from 133 - 214 mm (5 1/4" - 8 7/16")

Material: Steel

Color	Item No.
black	639.91.378

Replacement Trim Grommet

W x D x H: 457 x 457 x 6 mm (18" x 18" x 1/4")

CPU Holders

5
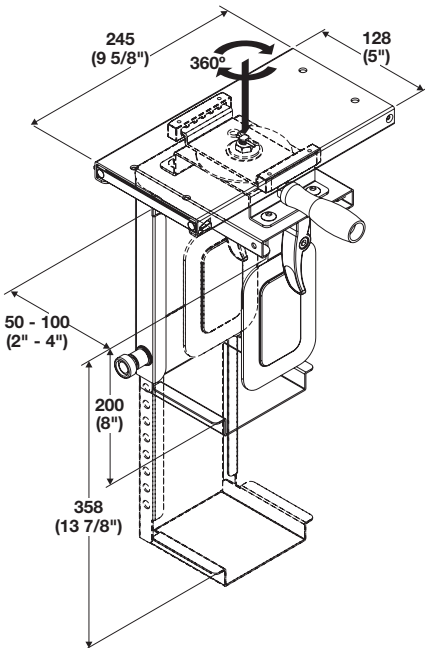

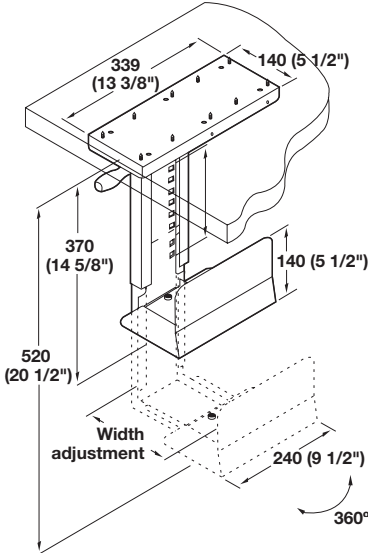

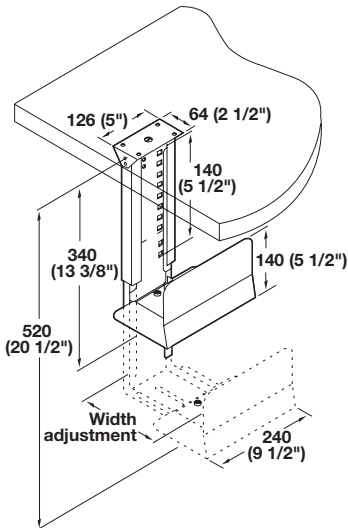

CPU Holder Fixed Mount

- Securely clamps and holds CPU
- Holds CPU's up and away from shoes, dust, moisture, vacuum cleaners or mops

Weight capacity: 25 kg (55 lbs.)
Height adjustment: 340 - 521 mm (13 3/8" - 20 1/2")

Material: Steel; Color: black epoxy

Width Adjustment	Item No.
140 - 235 (5 1/2" - 9 1/4")	639.72.300
70 - 133 (2 3/4" - 5 1/4")	639.72.320

CPU Holder with Swivel and Extension

- 360° swivel provides easy access to connections on the rear of CPU
- Provides 216 mm (8 1/2") of travel for easy access to connections on rear of CPU

Weight capacity: 25 kg (55 lbs.)
Height adjustment: 371 - 521 mm (14 5/8" - 20 1/2")
Width adjustment: 140 - 235 mm (5 1/2" - 9 1/4")

Material: Steel

Color	Item No.
black epoxy	639.72.310

CPU Holder with Swivel and Extension

- Adjustment range for smaller CPUs
- Quick-release pin for easy height adjustment
- Innovative lever adjustment for quick and secure width adjustment, custom fit to various CPU sizes
- 360° swivel provides easy access to connections on the rear of CPU
- Track provides 155 mm (6") of travel

Weight capacity: 10 kg (22 lbs.)
Width adjustment: 50 - 100 mm (2" - 4")
Height adjustment: 200 - 358 mm (8" - 13 7/8")

Material: Steel

Frame for Wood or Metal Drawers

• Inside drawer height of 222 mm (8 3/4") required
• Smooth surface allows files to glide with ease
• Rigid profile handles heavy loads
• Adjusts between filing configurations without tools
• Cross rails "snap" into fixed positions
• Cut-to-size side rails allow you to customize any drawer
• Two or more kits may be combined for use in wide lateral file drawers

5

Flat Head #6

File Frame Kit

Letter Width File Drawer Requirements:
• Inside width greater than 305 mm (12");
  Inside depth less than 584 mm (23")
Legal Width File Drawer Requirements:
• Inside width greater than 381 mm (15");
  Inside depth less than 584 mm (23")

Material: Profile: Steel
         Ends: Plastic; Color: black

Color	Item No.
black & aluminum with chrome top	822.82.930
black & aluminum with black top	822.82.330

Supplied With
8' Power cord

Note
To use SensioPod in a kitchen or bathroom countertop application, plug power cord into a GFCI (ground fault circuit interrupter) outlet.

**Ø100
(4")**

**343
(13 1/2")**

1
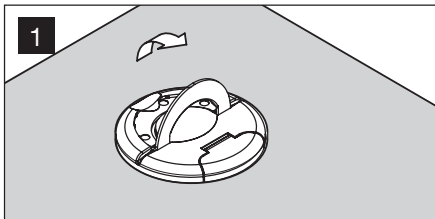

To use the Pop-up socket, gently lift up the handle on the top cover until all socket outlets are exposed and the green stop/release button clicks and locks in place.

2
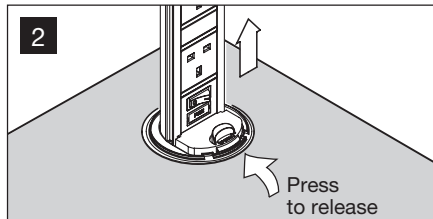

Press
to release

Press the master switch on. A green light confirms that the power is available. You can use all power sockets. The unit can be retracted in position by pressing the green stop/release button and pushing the unit down until it's flush with the surface, leaving the engaged cables on the window of the top cover.

3
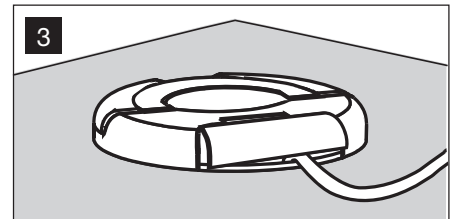

Insert SensioPod into the hole to discreetly hide away when not in use.

Dimensional data not binding. We reserve the right to alter specifications without notice.

Inches are approximate**

Docking Drawer from HAFELE

How to choose a Docking Drawer Outlet
Are you creating an in-drawer charging station to declutter a drawer in your kitchen? Or an in-drawer outlet to power you're your hair dryer, curling iron, or other small appliances?
Häfele offers two types of Docking Drawer Outlets: **Charging** (Max Current = 3 amps) and **Powering** (Max Current = 20 amps).

Charging Outlets
Designed to charge today's technology; commonly specified into kitchens, desks, mudrooms, closets, and nightstands to create a clutter-free charging space. Charging outlets feature a UL-Listed circuit breaker to prevent high-power devices from being used – Charging outlets will not power a hair dryer, mixer or other high-power devices.

Powering Outlets
These outlets are typically specified into a bathroom vanity, or a vertical kitchen tower. They can power hair dryers, curling irons, mixers and more. All powering outlets feature a UL-Listed thermostat that cuts power to the outlet in the event that the surrounding temperature exceeds 120°F, helping to minimize risk with devices that are accidentally left on or still plugged in when the drawer is closed.

Measure your Cabinet
Docking Drawer outlets come in a variety of sizes offering different ranges of extensions. See below to find the size that works for you.

1
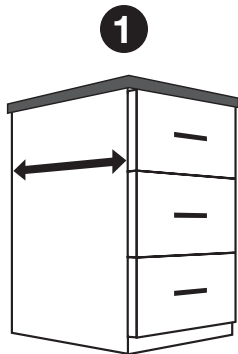

Start your project by measuring the cabinet depth.

2
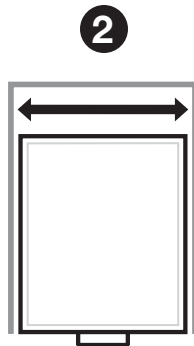

Measure the outer dimension of the drawer box width.

3

Then measure the space available behind the drawer box.

4

Then measure the interior drawer box height.

Dimensions in mm
Inches are approximate

Dimensional data not binding. We reserve the right to alter specifications without notice.

Docking Drawer Charging Series

Blade series are designed to charge and power today's technology such as Cell Phones, Tablets and Laptops in Kitchens, Desks, Closets, Furniture. Maximum output is 3 amps therefore cannot be used for items such as Hair Dryers, Curling Irons or Small Kitchen Appliances.

Blade Mounting Details
• For ≤ 24" cabinet depths, minimum drawer box with (OD) ≥ 15"
• Minimum space behind drawer box: 2"
• Minimum interior drawer box height: 3"

Blade Product Details
• Mounts horizontally or vertically
• Works with side mount, under mount and soft closing slides
• A standard 15 amp household outlet is required and must be within 4 1/2' of the cabinet
• Dishwasher, Disposal, Instant Hot Water or Trash Compactor outlets cannot be plugged into Docking Drawer outlets
• Tamper resistant outlets with circuit breaker
• Max. current: AC 3 amps @120 VAC
• USB 3.6 amps @ 5VDC
• ETL listed to UL962a
• 4 1/2" NEMA 5-15P power cord

Interlocking Safety Feature

Docking Drawer Powering Series

Style powering 20 amp outlets are designed to power Hair Dryers, Curling Irons and Small Kitchen Appliances in Bathrooms, Kitchens, Furniture, and Drawers. Style features a UL listed thermostat that cuts power to the outlet in the event that the surrounding temperature exceeds 120° F.

Style Mounting Details
• Minimum space behind drawer box: 2"
• Minimum interior drawer box height: 4" - 5.25"

Style Product Details
• Hardwired
• Power any device up to 20A
• Mounts horizontally or vertically
• Works with side mount, under mount and soft closing slides
• Tamper resistant GFCI protected outlets with manual reset thermostat
• Max. current: AC 20 amps @120 VAC, USB 3.6 amps @ 5VDC
• All models are ETL listed to UL962a
• 4 1/2' Power Cord

Docking Drawer Powering Series

Style powering 20 amp outlets are designed to power Hair Dryers, Curling Irons and Small Kitchen Appliances in Bathrooms, Kitchens, Furniture, and Drawers. Style features a UL listed thermostat that cuts power to the outlet in the event that the surrounding temperature exceeds 120° F.

Style Flush Mounting Details
Minimum space behind drawer box: 5"
Minimum interior drawer box height: 4"

Style Product Details
- Hardwired
- Power any device up to 20A
- Mounts horizontally or vertically
- Works with side mount, under mount and soft closing slides
- Tamper resistant GFCI protected outlets with manual reset thermostat
- Max. current: AC 20 amps @120 VAC
- All models are ETL listed to UL962a
- 4 1/2' Power Cord

Docking Drawer Blade with USB-C (PD) Power Delivery

2.5W 5W 10W 12W 18W 30W

PD

5

Benefits of Docking Drawer series with USB-C with Power Delivery:

Faster
USB-C (PD) can charge your device up to 70% faster than standard 12W charging found in USB-A ports. This means your devices will need less time to reach a full charge. A quick 10-minute charge with USB-C (PD) might be all you need to get going.

More Powerful
With up to 2X more power than typical USB ports, Docking Drawer with USB-C (PD) have up to 30W of power available and can charge larger devices like tablets and laptops with just a USB-C cable.

Safer
Docking Drawer series with USB-C (PD) contain a smart chip which makes charging safer with 3 key features:
• Recognizes and optimizes the charging requirements for each individual device and is especially designed to handle new higher levels of power.
• Built-in overcurrent protection safely keeps devices from receiving too much power.
• Features an internal thermoregulator to prevent electronics from overheating, which USB-A cannot do.

Note: All product specifications and mounting details are the same for all Blade Models - See previous pages for details.
