

AUTOMATED PH CONTROL | ORP OPTIONAL

GrowControl MPX Mini Dosing System automates pH dosing by combining Agrowtek's digital PHX pH controller with AgrowDose precision dosing pumps. MPX+ model includes ORP. Each pump can be configured independently.

PHX dosing controller with Lcd display allows advanced configuration of the pumps and dosing parameters, manual pump priming, as well as graphing, alarms, data logging and more.

Typical Installation, MPX2

Shown with optional PBX-310 sensor manifold and PBX-102 injection manifolds designed for easy installation with a dedicated recirculating pump for continuous sampling.

Ordering Options

- MPX2 +ORP - W**
- WiFi Upgrade Kit
 - None: pH, EC & Temperature
 - +ORP: Add ORP
 - 1: Single Pump
 - 2: Dual Pump
 - 4: Quad Pump
 - 5: Penta Pump
