

PowerSeeker telescopes are a great way to open up the wonders of the universe to the aspiring astronomer!

The Celestron PowerSeeker series is designed to give the first-time buyer the perfect combination of quality, value and features. Offering exceptional value, these telescopes feature portable yet powerful designs with ample optical performance to excite any newcomer to the world of amateur astronomy. All PowerSeekers come with a 2-Year Warranty!

The PowerSeekers come in a choice of refractor or reflector, equatorial or altazimuth mount design. The PowerSeekers come with all coated glass optical components with for enhanced image brightness and clarity. The Newtonian reflectors offer larger aperture and greater light gathering power needed to resolve the faint detail of hundreds of deep-sky and other celestial objects.

All PowerSeekers come on either sturdy equatorial mounts for tracking the sky, or collapsible altazimuth mounts suitable for terrestrial viewing as well as astronomical use.

The PowerSeekers come with a full range of eyepieces plus a 3x Barlow lens, allowing an increase in viewing power hundreds of times greater than that of an unaided eye!

A great choice for children and families.

PowerSeeker® Series

PowerSeeker 60
Model #21041

PowerSeeker 76
Model #21044

PowerSeeker 80EQ
Model #21048

PowerSeeker 114EQ
Model #21045

PowerSeeker 127EQ
Model #21049

PowerSeeker² 70
Model #21029
