

Clears Condensate Drains in Seconds

The Clog Popper is Easy and Effective

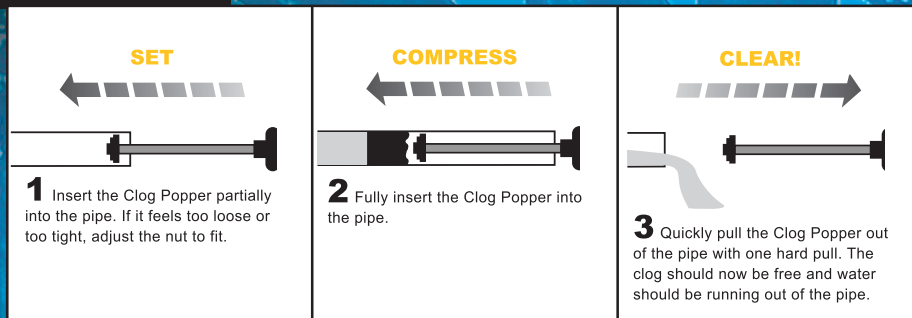

Before the Clog Popper, condensate drains were difficult, messy, or expensive to clear.

The Clog Popper clears condensate drains on air conditioners, heat pumps, ice machines, ice cream machines, walk in coolers, coolers, vending machines, geothermal systems, and pretty much anything with a drain-pan using a line smaller than 1".

- Creates Extreme Suction
- Powerful Vacuum
- Clears Clogs Easily

How it Works

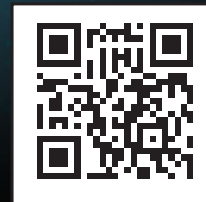

Accessories Included:

3/4" PVC assorted fittings and adapters to fit various tubing and pipe sizes.

**No CO₂
Cartridges**
