Refrigerant Scale with Weight Alarm

Trusted Simplicity Gets It Done!

You use a refrigerant scale nearly every day of the work week. You need it to work hard for you without taking a day off. Trust your measurements and get it done quickly with the SRS1 Refrigerant Scale. Enter how much refrigerant you want to add, open the valve, and wait for the alarm to sound so you know when to close the valve. Throw it over your shoulder when you're finished so you can carry the tank in one hand and tell your family your coming home with the other.

Right Stuff

Charge/Recover Weight Alarm
Enter how much refrigerant you want to add or remove. Start charging or recovering. Work on other tasks until you hear the alarm.

Lightweight and Easy to Carry
Carry your scale hands-free with the shoulder strap.

Display Features

- Bright blue backlight.
- Large digits are easy to see from a distance.
- Magnetic back to hang it where you want.
- Full numeric keypad for fast operation.
- Multi level battery indicator.

Solid Aluminum Construction
Rugged construction makes for super accurate measurements and ruggedness.

And More

- Platform resists water damage.
- Soft padded case with shoulder strap.
- Auto-Power-Off (APO).

Non-slip Cushioned Design
Rubber grip pad and rubber feet cushion the refrigerant tank so it holds securely.
