Oil Capacity	8oz (227ml)
Oil Compatibility	Fieldpiece Vacuum Pump Oil Please refer customer to user manual for location
Oil Drain	Self drain
Port Sizes	1/4" (6.35 mm) 3/8" (9.52 mm)
Compressor	15 Micron Ultimate Vacuum
Motor	1/2 HP, 3450 RPM
Power Source	115V, 120VAC @ 60 Hz
Max Current Draw	15 Amps
Ultimate Vacuum	15 microns
Dimensions	9.25" x 6.5" x 11.75"
Weight	23.5 lbs (10.7 kg)
Patent	Patents pending

Superior Performance
Performing a proper system evacuation prior to charging directly increases the expected life and efficiency of the system. Fieldpiece vacuum pumps provide a new view at system evacuation.
Good oil is the lifeblood of every evacuation. You need to know the condition of the oil. You need to change the oil easily with no mess. Clearly view the oil condition through the huge oil tank window. The oil backlight helps to see the condition of the oil and if the fill level is correct.
With the RunQuick™ oil change system, you can replace the oil in under 20 seconds, even while the pump is running. The extra wide base helps prevent tipping and spilling oil. Four in-line ports in three different sizes give you tidy hose routing and hose options. Place the power cord on the handle for tangle free storage. Carry the machine to and from the job site easily and well protected.

Vacuum Pump 5CFM - Two Stage

- RunQuick™ Oil Change System**
- Only Uses 8 Ounces of Oil
 - Large Clear Oil Reservoir with Backlight
