

First Voice Emergency Instruction Device (EID) #AVU5001

Multilingual! A lifesaving device designed to calm and effectively coach users on hundreds of first aid emergency scenarios. The simple and easy-to-use touchpad gives direction on how to respond quickly and accurately with audible and visual instructions. The Yes/No buttons are used to answer questions asked until the EID can accurately give instruction on how to proceed and further treat the injured person from scene assessment to cleanup of the event. Be prepared in the event of a sudden emergency; limited or no first aid/CPR training necessary. Intended for use by infrequently trained or volunteer rescuers; protocols comply with AHA/ECC standards. 3-year warranty.

#AVU5001 **English & Spanish standard!**

Dental ACLS EID #AVU5001D

Intended for use by dental office or other healthcare professionals. Protocols comply with AHA/ECC standards. 3-year warranty.

EID Upgrades

Data cards allow your EID to have strict adherence with any major training organization protocols. Inserting a new data card is a simple process with the easy access port on the back of the EID.

American Heart Association (AHA) CPR/First Aid configuration (standard)	#DC01

Physician Endorsed

“The FirstVoice EID is ideal for improving safety in corporate and institutional environments, schools and childcare centers, sports fields and arenas, parks and recreational facilities, and other public gathering places. Because the EID provides excellent skill reinforcement, I strongly recommend it. It’s also a valuable tool for OSHA compliance and Homeland Security readiness.”

- Dr. Donald Linder, Diplomate, - American Board of Emergency Medicine, Emergency Staff Physician, Chief Medical Examiner of Linn County, Iowa, and Adjunct Clinical Professor of Emergency Medicine, - Carver College of Medicine, University of Iowa.
