

# Universal Pump

- Audible and visual alarms for low flow (in case of blocked tubing or filter)
- Audible and visual alarms for low battery
- Power LED
- On / off switch
- Handheld ergonomic case
- Compact and lightweight
- Compatible with all GfG portable units
- Simple to use
- Easily replaceable batteries

# Universal Sample Pump

Handheld electronic pump for remote sampling of gases.

Sample confined spaces, vessels, or sewers with ease without lowering your expensive gas detector into unknown spaces. With GfG's universal sample pump, pre-entry sampling from a confined space just got easier. Simply attach your gas detector to the pump and sample the air in a confined space prior to entering. The pump does all the work.

GfG's technically superior electronic sample pump is suitable for use with all portable gas detection instruments. With

its ergonomic and user-friendly design, it makes pre-entry confined space testing a breeze.

One button operation and power indicator provide simplicity unmatched by competitors' sample pumps. Quick, easy, and accurate, this pump provides continuous remote sampling with high efficiency and contamination free operation. The proven diaphragm pump design and state of the art electronics make this sample pump a wise investment.

**"Not for use in hazardous locations"**

## Universal pump

# Technical Data

### Pump

Electronic motorized sample pump

### Power supply

2 "AA" batteries

### Sample draw rate

1.0 SCFH (.5 lpm)

### Sample distance

50 feet

### Operation time

18+ continuous hours

### Temperature range

+41 to 104°F / +5 to 40°C

### Filter and water trap

.45 micron

### Weight

1 pound (453 g)

### Dimensions

6x4x4 inches (152x102x102 mm) (HxWxD)
