## THE SEEKER™ SERIES

General Tools & Instruments, the leading supplier of specialty hand tools and electronic test instruments, proudly announces The Seeker™ Series of affordable, hand-held camera scopes for remote visual inspection. See inside, around, behind, underneath, above, and between walls, machinery and objects that are obscure to the human eye. Find water leaks, corrosion, mold, and infestation inside walls before any demolition needs to occur. These lightweight, full color, digital scopes feature waterproof camera-tipped probes with adjustable lighting.
