

# The Sirius™ Multigas Detector

One PID, Four Gases...Detects Hundreds of Chemicals

MSA  
**STELLAR® Series**  
Gas Detection Instruments

The Sirius Multigas Detector provides the solution you have been looking for in one complete package: incredible performance, maximum simplicity, and durable design; all with MSA's commitment to quality.

**MSA SIRIUS™**

**Tremendous Flexibility-** Users are able to simultaneously monitor for volatile organic compounds with low vapor pressures while measuring for combustible, toxic and oxygen deficient atmospheres within one reliable, easy-to-use, durable unit.

**Reliable PID Performance-** Integrating our proprietary PID sensor design (patent-pending) into our proven reliable multigas detector designs, such as the designs used in the Orion<sup>®</sup> and Solaris<sup>™</sup> 4-gas multigas detectors, make this combination a dependable winner and allows users to get their monitoring done reliably and quickly.

**User-Friendly Software-** Easy-to-use software allows users to focus on their tasks at hand.

**Superior PID Sensor Design-** Superior PID sensor design reduces maintenance time and cost.

**Flexible Configurations-** This design combines two instruments into one.

**Loud, Attention-Grabbing Alarm System-** The Sirius Multigas Detector provides outstanding alarms to clearly warn users of a hazardous situation.

**Interchangeable Lithium-Ion and Alkaline Battery Packs-** Keep instruments running 24 hours-a-day, 7 days-a-week.

**Easy Calibration and Compatibility with MSA's Total Instrument Manager-** Increase user safety by easily ensuring proper sensor performance.

**Long-Term Storage Kit-** In case of emergency, users can be confident they have what it takes to ensure their Sirius unit is working properly and will be ready to go.
