

**BEST IN CLASS
PERFORMANCE**

MB-P0813-DC25 (8") / MB-P1210-DC25 (12")
Ventilator and 25' Ducting/Canister All-in-One

**8" & 12" Confined Space Ventilator
and 25' Ducting/Canister All-in-One**

The ideal workhorse, the ventilator is perfect for small confined spaces, such as manholes and sewers. This compact unit delivers maximum airflow for a safe, comfortable and controlled work environment. The ventilator and canister can be purchased as a complete unit or as separate pieces.

The canister is ergonomically designed and keeps 25' length of ducting clean, dry and contained for ease of transport and longer life.

Ventilator

MB-DC0825 (8")
MB-DC1225 (12")
Canister with 25' Ducting

FEATURES and BENEFITS

- Dual-walled polyethylene housing design, delivers exceptional durability and long life
- 8 motor mount vanes in separate poly sleeve to absorb external forces without disturbing the internal mechanisms or airflow
- Rubber draw latch for easy tool-free attachment to canister
- 25' single-ply PVC vinyl-coated polyester ducting comes with industry standard fastening cuff at the end
- MASTER yellow for high visibility and increased safety
- Stackable for efficient storage and work space
- Lightweight (8"/15 lb and 12"/28 lb) for easy portability
- ETL listed for compliance with North American safety standards
