

ThinTouch Nitrile Gloves

Enhanced tactile sensitivity • Puncture resistant • Reduced fatigue

Ergonomic design manufactured using an advanced elastic thin-film nitrile formulation for supreme sensitivity, excellent comfort and maximum protection

- ★ Best-in-class thin gloves
- ★ Double-washed gloves do not foam on wetting
- ★ Low-particulates to prevent glove-related work contamination
- ★ Superior strength and durability

ASTM D 6319 | ASTM D 6124 | EN 455-1
EN 455-2 | ISO 9001 / ISO EN 13485

Applications:

Laboratory Analysis

Biotechnology

Delicate & precise operations

General Manufacturing

Electronics

Ambidextrous

No Latex

Non Sterile

Single-use

Glove Length

No more compromise with tactile sensitivity and comfort. Specially formulated and designed for supreme sensitivity and maximum protection. It's ergonomic design, manufactured using an advanced elastic thin-film nitrile formulation delivers excellent comfort to the user. These gloves have high elasticity and good memory resulting in excellent adaptation to wearer's hand. It's 'Touch and Feel' experience due to optimised tactile sensitivity makes it a perfect glove for applications involving small parts or operations demanding speedy handling.

Cole-Parmer ThinTouch Nitrile Gloves 9.5"

Ordering Information:

Product SKU	Size	Palm Width	Length	Qty/Case
MK-15954-24	Small	90mm	9.5"	100 gloves/box 10 boxes/case Total: 1000 Gloves
MK-15954-25	Medium	100mm		
MK-15954-26	Large	111mm		
MK-15954-46	X-Large	120mm		

Physical Properties:

Characteristics	Value	Test Method
Freedom from Pinholes	AQL* 1.5	EN 455
Tensile Strength		
Before Ageing	>14 MPa	ASTM D 6319
After Ageing	>14MPa	
Elongation		
Before Ageing	>400	ASTM D 6319
After Ageing	>300	
Thickness		
Cuff	0.060mm	ASTM D 6319
Palm	0.075mm	
Fingertip	0.130mm	

*AQL as defined by ISO 2859 for sampling attributes

Latex-Free: Prevents latex induced allergies and/or irritations to the skin even on prolonged usage

Exceptional Non-Slip Grip: Textured fingertips for enhanced wet or dry grip

Powder-Free: Eliminates powder related complications and sensitivity

Tactile Sensitivity: 'Touch & Feel' experience with high dexterity

Tear and Puncture Resistant

Nitrile Formulation: Delivers highest protection for a wide range of chemicals

Beaded Cuffs: Ensure ease of donning
