

PELSUE®

TRADITION+INNOVATION

Model	1690D
Power:	120 VAC, 1 Amp
Certifications:	CSA, CEESI
Dimensions:	18.5"L x 13.5"W x 15.25"H
Weight:	30 lbs.
Certified Air Flow:	(coupled w/1325D)
Free Air:	639 cfm
w/ one 90° bend:	532 cfm
w/ two 90° bends:	498 cfm
BTUs	70,000
Propane Usage:	2.25 lbs./hr.
*Available in European Voltage (50Hz)	

Model 1690D, when coupled with the 1325D Axial Ventilator, provides fresh warm air for all your confined space needs. This unit is propane fired and electrically powered. Requires the model 1325D Ventilator to operate. A Remote Thermostat Control (Model 1620) is also available.

PELSUE®

TRADITION+INNOVATION

All-In-One Heater & Blower in one single unit

Model	1590
Power:	120 VAC, 4 Amps
Certifications:	CSA, CEESI
Dimensions:	27"L x 14.5"W x 14"H
Weight:	47 lbs.
Free Air (certified):	424 cfm
w/ one 90° bend:	380 cfm
w/ two 90° bends:	366 cfm
BTUs	45,000
Propane Usage:	1.5 lbs./hr.
*Available in European Voltage (50Hz)	

Model 1590, one-piece, Axial Propane Heater/Blower, provides fresh warm air. It is extremely efficient requiring only 45,000 BTU's of input to get a 125° heat rise. Certified for ventilating confined spaces with or without heated fresh air via air ducts. This model is available in both North American and European voltages.
