

# MIDI RODDER

Model	Description
48200M	200 ft midi rodder
48400M	400 ft midi rodder
48600M	600 ft midi rodder
48800M	800 ft midi rodder
481000M	1000 ft midi rodder

Includes:

- 3/8" (.95 mm) diameter rod from 200' to 1000'
- Vertical/Horizontal stand & spool with wheeled frame & spool brakes
- Threaded end fittings to accept all accessories
- Units come marked in feet (add an additional "M" to part number for marking in meters).

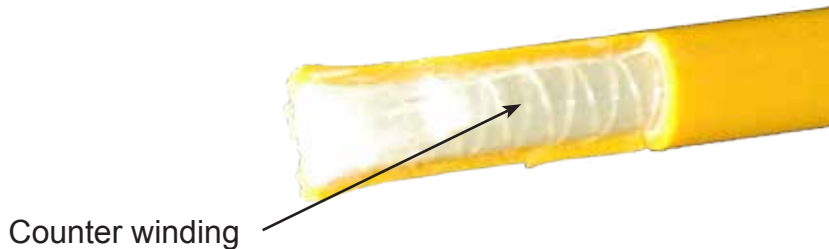

Developed for 2" or 3" (5 or 7.6 cm) conduit and up to 1000 feet (305 m). The Midi rodder combines mid range lengths with high flexibility. Especially effective in pulling electric cable, winch rope, and midrange lengths of telecommunications cabling. This is an imported rod from Germany and is capable of tight bend radii without breaking.

Specifications:

Weight:
