CX2000 CONDUCTIVITY/ RESISTIVITY TRANSMITTER
PRODUCT SPECIFICATION SHEET

4-20mA outputs for conductivity or resistivity + temp

2 Hi/Lo Relays for controlling alarms, pumps and more

Large LCD display with auto-sense backlight and contrast setting

NEMA 4X, IP65 enclosure

Sample averaging to enhance stability

Compatible with Sensorex CS8000 and CS150 series sensors

The CX2000 is a full-featured Conductivity or Resistivity transmitter/controller. Simply power up your CX2000 with 110-240V AC power and you get a controller with a wide range of useful features:

2 relays, 1 wash control, 2 each 4-20mA outputs (Cond & Temp or Resistivity & Temp).

Calibration is simple with preset standards and can be password protected with a programmable security code.

Mounting choices include: wall or panel.

The large LCD display with auto-sense backlight and contrast adjust makes the CX2000 display so it can be easily viewable in all areas.
