EILAND Dining

MATERIALS

Powder coated aluminum is durable and lightweight. The rustproof nature of the frame offers high quality and strength. Composite cord is PVC coated polyester thread woven into a cord. Like our composite sling it is a material ideally suited to the outdoor environment. Solution-dyed olefin fabric is an economical option available on stocking cushions that combines durability with affordability.

	ED63TAC 63" Rect. Dining Table	63"	45"	29.75"	71.5	1	65"	47"	6"	78		2" (50mm)

❷ ❹ Indicates that the item is available in a quantity of TWO or FOUR only.

*Chair pads for the Arm and Side Chair are optional, sold separately, and available in the stocking material shown below.

Chair pads are also available as Made To Order (MTO) with Customer's Own Material (COM) with a minimum of two cushions, or with any Sunbrella® Special Order Fabric (SOF) with no minimum order. Pricing and lead times will vary; please call for more information.

Chair pads feature quick-dry construction with vented bottom for drainage. Stocking cushions in Olefin will be constructed with reticulated foam and ties in the back. Made To Order cushions will be constructed with a waterproof bag encasing the foam with hook and loop tabs on the bottom.
