CARBON POWDER COATED ALUMINUM

EDCHC

FEATURES

- Lightweight yet sturdy
- Arrives fully assembled
- Stackable for convenient storage
- Optional seat pad has quick-dry construction with a waterproof bag encasing the foam core and a vented bottom to allow for drainage
- Bumpers on the seat bottom and legs prevent scratching while stacked
- Leg end caps provide protection from marring and scratching of surfaces
- Available only in packs of TWO or FOUR
- Mix and Match with Nette, Korai, and Salino Collections
- Pair with Eiland dining tables

MATERIALS

Powder-coated aluminum frame is durable and lightweight. The rustproof nature of the frame provides commercial-grade quality and strength making it ideally suited for outdoor seating. Optional Quick Ship solution-dyed olefin chair pad is mildew and chlorine resistant, quick drying, and water repellent. Dye is added to a liquid polymer solution before being spun into fibers to create fabric. This process makes the fabric color true, all the way through to its core.
