FRAME

CARBON POWDER COATED ALUMINUM

SLWCHBTIE (shown in Nauticau Truffle)

FEATURES

- Resin wicker resists weathering
- Welded aluminum construction with stainless steel hardware
- Quick drying cushions (included) are constructed with a reticulated foam core and a vented bottom to allow for drainage
- Low-maintenance and ideal for outdoor applications
- Leg end caps provide protection against marring and scratching of surfaces
- Pair with Eiland dining tables
- Only available in packs of TWO

MATERIALS

Powder-coated aluminum frame is durable and lightweight. The rustproof nature of the frame offers high quality and strength. Synthetic polyethylene resin wicker is both durable and elastic, providing a comfortable seat that resists weathering and will endure years of use. Quick Ship cushion options include solution-dyed polyester and Nauticau.

TRUFFLE NAUTICAU TF

TOAST SOLUTION-DYED POLYESTER TS

Nauticau is a PVC-coated marine grade fabric constructed to withstand extreme temperatures, resist fading, and provide healthcare-grade mold and mildew resistance. Both flexible and tough, Nauticau does not require special care or conditioning and is virtually waterproof.

Solution-dyed polyester is an economical option for outdoor cushions and umbrellas. These fabrics have the look and feel of cotton with the strength, weather, and sun resistance of polyester.

Cushions also available in custom fabric or Customer's Own Material with a minimum order of two cushions. Sunbrella® Performance Fabrics require no minimum order. Pricing and lead times will vary; please call customer service at 877.866.3331 or email sales@oxfordgarden.com.

Covering furniture when not in use is recommended.
