

### MATERIALS

Electroplated galvanized steel is strong and durable. Powder-coating adds an additional level of weather resistant strength by protecting against rust and corrosion. Tekwood is a wood-alternative developed from polystyrene providing the look of wood without the weathering process. Lite-Core is an engineered panel of natural granite with an aluminum honeycomb core resulting in a beautiful surface that is durable and lighter in weight than solid stone.

# OXFORD GARDEN® TRAVIRA Sling Seating

## MATERIALS

Powder-coated aluminum is durable and lightweight. Its rustproof nature and resistance to chipping or peeling ensures furniture will remain beautiful over its lifetime. Composite sling is a mesh fabric woven using PVC coated polyester. Durable and elastic, this outdoor fabric provides a comfortable seat that resists weathering. Tekwood is a wood-alternative developed from polystyrene providing the look of wood without the weathering process. All materials are ideally suited to the outdoor environment and provide commercial grade quality.
