U-Line: Over 50 Years of Innovation

U-Line, the award-winning market leader in premium built-in undercounter ice making, refrigeration, and wine preservation products, celebrates over 50 years of innovation with a collection of modular undercounter refrigeration units that offer advanced technology, aesthetic elegance, and seamless integration for use in today’s modern kitchens and lifestyles. U-Line has earned a solid reputation as the undercounter market leader by continuing to develop, manufacture, and support the best undercounter refrigeration products on the market.

For over five decades, we continue to be the leader in innovation, quality, and value in the premium modular ice making, refrigeration, and wine preservation market. We have captivated those with an appreciation for the finer things with exceptional functionality, style, inspired innovations, and attention to even the smallest details. We are known and respected for our unwavering dedication to product design, quality, and selection.

We have shipped modular refrigeration products worldwide for several decades. Design, engineering, and final assembly of all products is completed in Milwaukee, Wisconsin, USA.
Installed: 36" Custom Model (3018WCINT & 3018CLRINT with Ice Flange Kit), 3036RRINT, 3024FZRINT, 3036RRINT
U-Line introduces a revolutionary approach to food and beverage preservation, offering the first flexible design solution that provides a better alternative to conventional “big-box” refrigerators. U-Line’s advanced refrigeration systems, large and flexible capacities, and seamless integration capabilities allow you to preserve the right product, in the right place, at the right temperature. U-Line modular refrigeration products allow you to design your kitchen around you, not your refrigerator.
Point-of-Use Refrigeration

We give you the freedom to install our units anywhere you please. Our front ventilation system is engineered to circumvent the need for additional airflow, providing the flexibility to integrate and install our products undercounter, in island applications, kitchens, wet bars, offices, gyms, bathrooms, or wherever you need them most.
Our modular products are designed and developed on a universal platform. We have shipped our modular refrigeration products worldwide for several decades. We continue to provide premium modular refrigeration products throughout North America, Asia, Africa, Oceania, Europe, Latin America, and the Middle East. Design, engineering, and final assembly of all products is completed in Milwaukee, Wisconsin, USA.

Product Collection by Series

Modular 3000 Series

The Modular 3000 Series is comprised of our ultra-premium product offering and is designed to provide the ultimate in point-of-use flexibiltiy. These models are the most innovative, highly featured refrigeration and ice making products in the modular appliance industry. In addition to thoughtful design, the Modular 3000 Series models are equipped with our U-Select® Control, providing the ability to choose optimal temperature modes that keep your food and beverages fresher longer. The Modular 3000 Series spans seven product categories – Wine Captain® Models, Beverage Centers, Clear Ice Machines, Glass Door Refrigerators, Solid Door Refrigerators, Drawer Models, and Freezers.

2000 Series

The 2000 Series is comprised of our super-premium product offering and is designed to integrate beautifully into any application, while actively maintaining temperatures to ensure extended preservation of your food and beverages. Pristine lines, spacious interiors, and our Digital Touch Pad Control provide an elegant and universal aesthetic. The 2000 Series offers upscale features, advanced technology, and specialized product families. The 2000 Series spans four product categories – Wine Captain® Models, Beverage Centers, Glass Door Refrigerators, and Solid Door Refrigerators.

1000 Series

The 1000 Series is comprised of our premium product offering, based on over fifty years of innovations, design patents, and world firsts. Now with a completely redesigned style including upgraded features and technology, it is the most diverse line in the industry. The 1000 Series features clean lines, elegant interior spaces, and offers either our Digital Touch Pad Control or Mechanical Dial Control. The 1000 Series offers more targeted priced products with impressive features. The 1000 Series spans seven product categories – Wine Captain® Models, Beverage Centers, Clear Ice Machines, Crescent Ice Makers, Solid Door Refrigerators, Drawer Models, and Combo® Models.
ADA Series

The ADA Series is designed to install under the federally mandated requirement of a 34" high countertop. Controls are easily accessible and allow for single-hand operation. These models are a perfect solution where ADA height compliancy is required.

Outdoor Series

Today’s entertaining environments extend far beyond the boundaries of the traditional home. For over 50 years, our products have been used in outdoor applications and continue to be amongst our most popular models. Our outdoor models are fully wrapped in stainless steel to protect from harsh outdoor elements. These durable outdoor products are UL (Underwriters Laboratory) rated and deemed suitable for outdoor use.

Marine Series

We take ice making and refrigeration to yet another environment, the sea. Our Marine Series feature durability and aesthetics, as well as exceptional ice production and refrigeration capacity, for use above and below deck. Corrosive-resistant, stainless steel hinges and fasteners on the UV resistant cabinet and doors, combine maximum convenience with durability and good looks.
Installed: 36" Custom Model (3018WCINT & 3018CLRINT with Ice Flange Kit)
Our modular refrigeration provides the best premium design aesthetic and the most function by offering varying levels of integration, lighting, and installation application options. Designed and engineered in America, but built for the world, our products integrate into a standard 24” cabinet depth and are offered in the following standard widths: 15”, 18”, 24”, and 36”.

Our front ventilation system is engineered to circumvent the need for additional airflow, providing the flexibility to integrate and install our products undercounter, in island applications, or wherever you need them most. All integrated models maintain zero clearance, ensuring performance and hinge clearance with the panel/frame installed.

Integrated finishes are offered in most models through each of our series: Modular 3000 Series, 2000 Series, and 1000 Series, allowing for installation of a ¾” custom integrated panel/frame of your choice; no kits or accessories needed. Most integrated models offer black interiors that essentially disappear into your cabinetry, ensuring an elegant installation. Our Modular 3000 Series and 2000 Series grilles can accept a custom integrated toe-kick; or can accept a continuous custom integrated toe-kick that extends the full cabinet length to create a design that seamlessly integrates with your surrounding cabinetry.
Modular 3000 Series

2000 Series

1000 Series
Modular 3000 Series
Seamlessly Integrated

The Modular 3000 Series seamlessly integrates into virtually any environment and are offered in the following widths: 18", 24", and 36". All models are available in our integrated finish, allowing for simple installation of a ¾" custom overlay panel of your choice; no kits or accessories needed. Adjustable grille allows for front ventilation, ensuring your model can be installed in a variety of applications, including islands. Grilles can be shifted front-to-back and up-and-down to ensure alignment with adjacent cabinetry toe-kicks. Grilles can accept a custom overlay toe-kick; or run your continuous custom overlay toe-kick that extends the full cabinet length to create a design that seamlessly integrates with your surrounding cabinetry. Additionally, models offer concealed and covered hinges with built-in doorstop(s), four independently adjustable leveling legs, rear legs that are accessible and adjustable from the front, and doors that simplify fine-tuning and alignment during installation.

2000 Series
Fully Integrated

The 2000 Series fully integrates into virtually any environment and are offered in the following widths: 18" and 24". All models are available in our integrated finish, allowing for simple installation of a ¾" custom overlay panel of your choice; no kits or accessories needed. Fixed grille allows for front ventilation, ensuring your model can be installed in a variety of applications, including islands. Grilles can accept a custom overlay toe-kick, creating a design that fully integrates with your surrounding cabinetry. If your model’s toe-kick aligns with adjacent cabinetry toe-kicks, grilles can accept a continuous custom overlay toe-kick that extends the full cabinet length to create a design that fully integrates with your surrounding cabinetry. Additionally, models offer concealed and covered hinges with built-in doorstop(s), and four independently adjustable leveling legs.

1000 Series
Integrated

The 1000 Series integrates into various environments and are offered in the following widths: 15" and 24". Many models are available in our integrated finish, allowing for simple installation of a ¾" custom overlay panel of your choice; no kits or accessories needed. Fixed grille allows for front ventilation, ensuring your model can be installed in a variety of applications, including islands. Additionally, models offer low-profile, reversible pivot hinges and four independently adjustable leveling legs.
Wine Captain® Models

As the first North American appliance manufacturer to develop a residential wine preservation model, we understand that wine requires proper storage. As opposed to simply chilling wine, we attend to every detail in our Wine Captain® Models to protect and maintain wine during storage. Our wide range of models with advanced temperature management systems best accommodate your wine preservation requirements and personal taste—in wine, as well as décor.

All Wine Captain® Models offer the following optimal environment features:
LowE coated, argon gas filled thermopane glass provides protection from harmful UV light. Additionally, its insulating qualities help maintain temperature stability and increase energy efficiency. Relative humidity inside the unit is approximately 50%, while the rubber mounted compressor virtually eliminates vibration.
The 3018WC and 3036WCWC are equipped with our convection cooling system, rapidly and efficiently taking items to your set temperature. The 3024ZWC offers two independently controlled compartments, ensuring your collection will be preserved to perfection. The U-Select® Control makes it quick and simple to choose from one of the 3 pre-programmed modes: Sparkling, White, and Red wine mode, each designed to provide cellar-like conditions. The Sparkling and White wine modes are equipped with our Quick Chill Feature, which rapidly chills your wines to the lowest temperature setting, perfect for unexpected guests. You also have the option to simply adjust the temperature within the modes based on your personal preference, ranging from 38°F - 65°F. Additionally, the 3024ZWC and the 3036WCWC are equipped with Beverage mode, reaching temperatures as low as 34°F.

LED Theater Lighting
Black interiors gently illuminate with LED theater lighting, then softly dim off when the door is closed, or can be set to stay on for 3, 6, or 24 hours. Light brightness can be set to low, medium, or high.

Flexible Storage
Wine racks are designed to accommodate a variety of bottle shapes and sizes. The fourth and fifth racks on the 3018WC and 3036WCWC, and the third and sixth racks on the 3024ZWC, allow for larger diameter wine and champagne bottles, providing optimal storage flexibility for your collection.

Wine Racks
Robust, full-extension black vinyl coated wine racks with graphite finished beech wood fronts, and smooth glide design integrate seamlessly, allow for easy access, and prevent bottles from shifting.

- 3018WC: up to 31 wine bottles (750 ml)
- 3024ZWC: up to 43 wine bottles (750 ml)
- 3036WCWC: up to 62 wine bottles (750 ml)

Optional Door Lock
All Modular 3000 Series Wine Captain® Models are offered with a door lock in our stainless finish.
Wine Captain® Models
2000 Series

Optimal Environment
The 2218WC is equipped with our convection cooling system, rapidly and efficiently taking items to your set temperature. The 2224ZWC offers two independently controlled compartments, ensuring your collection will be preserved to perfection. Our Digital Touch Pad Control allows you to easily set the temperature, ranging from 38°F - 65°F. Additionally, the 2224ZWC can reach temperatures as low as 34°F to keep your craft beer crisp and cold.

LED Lighting
Black interiors are illuminated with LED lighting that automatically turns off when the door is closed, or can be set to stay on for 3 hours.

Flexible Storage
Wine racks are designed to accommodate a variety of bottle shapes and sizes. The fourth and fifth racks on the 2218WC, and the third and sixth racks on the 2224ZWC, allow for larger diameter wine and champagne bottles, providing optimal storage flexibility for your collection.

Wine Racks
Full-extension black vinyl coated wine racks allow for easy access and prevent bottles from shifting. Solid natural beech wood fronts on wine racks can easily be stained to match surrounding cabinetry.

• 2218WC: up to 31 wine bottles (750 ml)
• 2224ZWC: up to 43 wine bottles (750 ml)

Optional Door Lock
The 2224ZWC is offered with a door lock in our stainless finish.
Optimal Environment

The 1215WC and 1224WC offer our Digital Touch Pad Control, allowing you to easily set the temperature, ranging from 38°F - 65°F.

LED Lighting

Black interiors are illuminated with LED lighting that automatically turns off when the door is closed, or can be set to stay on for 3 hours.

Flexible Storage

Wine racks are designed to accommodate a variety of bottle shapes and sizes, while the fourth and fifth racks allow for larger diameter wine and champagne bottles, providing optimal storage flexibility for your collection.

Wine Racks

Three-quarter extension black vinyl coated wine racks allow for easy access and prevent bottles from shifting. Solid natural beech wood fronts on wine racks can easily be stained to match surrounding cabinetry.

- 1215WC: up to 24 wine bottles (750 ml)
- 1224WC: up to 48 wine bottles (750 ml)

Chilled Environment

The 1024WC offers our Mechanical Dial Control, allowing you to keep your wine chilled and accessible for all your entertaining needs.

Lighting

White interiors are illuminated with recessed incandescent lighting that automatically turns off when the door is closed or can be turned on indefinitely with the on/off switch.

Wine Racks

Equipped with three-quarter extension zinc coated wine racks. Solid natural beech wood fronts on wine racks can easily be stained to match surrounding cabinetry.

- 1024WC: up to 48 wine bottles (750 ml)
Beverage Centers

Our Beverage Centers are the perfect accompaniment to any room, making entertaining easier and life more enjoyable, while putting convenience within arm’s reach. Unlike similar products on the market and simply stated, our Beverage Centers keep your beverages cold; down to 34°F cold. Adjustable glass shelves accommodate a wide range of beverage sizes—perfect for your soda, juice, craft beer, and wine. A combination of glass shelves and wine racks, in addition to ease of installation, make our Beverage Centers ideal to integrate into any application: in the kitchen, office, gym, or bathroom.

All Beverage Centers offer the following optimal environment features:
LowE coated, argon gas filled thermopane glass provides protection from harmful UV light. Additionally, its insulating qualities help maintain temperature stability and increase energy efficiency. A rubber mounted compressor virtually eliminates vibration.
Beverage Centers
Modular 3000 Series

Optimal Environment
Models are equipped with our convection cooling system, rapidly and efficiently taking items to your desired temperature. The U-Select® Control makes it quick and simple to choose from one of the 5 pre-programmed modes: Deli, Market, Root Cellar, Pantry, and Beverage mode. The left side of the 3036BVWC is equipped with 3 pre-programmed modes: Sparkling, White, and Red wine mode, each designed to provide cellar-like conditions. You also have the option to simply adjust the temperature based on your personal preference. The 3024BEV ranges from 34°F - 70°F. The left side of the 3036BVWC ranges from 38°F - 65°F and the right side ranges from 34°F - 70°F.

LED Theater Lighting
Black interiors gently illuminate with LED theater lighting, then softly dim off when the door is closed, or can be set to stay on for 3, 6, or 24 hours. Light brightness can be set to low, medium, or high.

Flexible Storage
The 3024BEV is equipped with three adjustable tempered glass shelves with 7 varying height positions; the 3036BVWC is equipped with four adjustable tempered glass shelves with 11 varying height positions, providing optimal storage flexibility for your food and beverages. Full-extension, slide-out crisper drawer in the 3036BVWC is removable for easy cleaning.

- 3024BEV: up to 79 bottles (12 oz) or up to 123 cans (12 oz)
- 3036BVWC: up to 79 bottles (12 oz) or up to 123 cans (12 oz)

Wine Racks
Robust, full-extension black vinyl coated wine racks with graphite finished beech wood fronts, and smooth glide design integrate seamlessly, allow for easy access, and prevent bottles from shifting.

- 3024BEV: up to 10 wine bottles (750 ml)
- 3036BVWC: up to 31 wine bottles (750 ml)

Optional Door Lock
All Modular 3000 Series Beverage Centers are offered with a door lock in our stainless finish.

• 1024BEV: up to 16 wine bottles (750 ml)
Combining superior performance with stylish design, we enlisted America’s #1 selling commercial ice machine company to co-develop our Clear Ice Machine in 1998. Today, our patented clear ice making process provides the ideal balance of high ice production, quiet operation, and easy cleaning by not allowing air bubbles, gas, particulate, and chlorine to freeze in the cubes. The result is clean and clear restaurant quality ice in the comfort of your home.
Installed: 36” Custom Model (3018RGLINT & 3018CLRINT with Ice Flange Kit)
Clear Ice Machines
Modular 3000 Series & 1000 Series

Ice Production, Capacity, and Thickness
Models boast a high daily ice production of up to 60 lbs and have a capacity of up to 30 lbs of crystal clear ice cubes, ensuring your party will always have ice on hand. Models also offer the option to customize the fullness of your clear ice cubes. Clear ice cube dimensions are: \( \frac{7}{8} \)" W x \( \frac{7}{8} \)" H x \( \frac{7}{8} \)" L.

Drain Required, Pump Optional
All Clear Ice Machines require a drain. If you do not have access to a gravity drain, simply order your model with our sealed and permanently lubricated P60 drain pump factory installed. Clear Ice Machines ship with a factory installed water and drain line.

Silent Mode
Models offer a silent mode, which temporarily suspends ice making for 3 hours.

Durable Ice Scoop
Models are equipped with a clear and durable ice scoop.

Easy Clean System
Models are equipped with a clean indicator alert, notifying you when cleaning is needed. A 45-minute cleaning cycle helps maintain proper performance. Visit U-Line.com to purchase clear ice cleaner.

LED Lighting
The 3018CLR has a black interior and LED theater lighting, which delicately illuminates your crystal clear ice cubes beautifully. Light brightness can be set to low, medium, or high. The CLR1215 offers a white interior illuminated with LED lighting.

For Outdoor Series Clear Ice Machine data, see page 75.
When Henry Uihlein founded the U-Line Corporation in 1962 as an outgrowth of the Ben-Hur Freezer Company, the initial product manufactured was the industry’s first undercounter ice maker. Today, our Crescent Ice Maker continues to be the leader in its class. Given the limited ice production of full size refrigerators, our Crescent Ice Makers ensure you always have enough ice to accommodate daily use as well as special occasions.
Crescent Ice Makers
1000 Series & ADA Series

Crescent Ice Cube Production
Models use less than 3 gallons of water to produce up to 25 lbs of crescent ice cubes daily, a rate that is approximately four times greater than what the average household refrigerator produces. Crescent ice cube dimensions are: ½” W x ¾” H x 2 ½” L.

No Drain Required
There is no drain required in our crescent ice makers, ensuring a quick and easy installation.

ADA Height Compliant
The BI95, BI98, and ADA15IM are designed to install under the federally mandated requirement of a 34” high countertop.

For Outdoor Series Crescent Ice Maker data, see page 75.
Glass Door Refrigerators

Having pioneered the residential undercounter glass door refrigerator, we know how to preserve food and beverages. All our Glass Door Refrigerators utilize our convection cooling system, providing the ability to rapidly cool items down to 34°F. Thoughtful design, including varying shelving options that adjust as your storage needs shift, make the most of your refrigerator capacity.

All Glass Door Refrigerators offer the following optimal environment features:
LowE coated, argon gas filled thermopane glass provides protection from harmful UV light. Additionally, its insulating qualities help maintain temperature stability and increase energy efficiency. A rubber mounted compressor virtually eliminates vibration.
Glass Door Refrigerators
Modular 3000 Series

- 1224DWR: up to 98 bottles (12 oz) or up to 150 cans (12 oz)
Freezers

With the addition of our residential Freezer, you now have the ability to create a truly modular kitchen. Our frost-free freezers provide consumers and designers alike with premium performance and the ability to install in a variety of applications, even in kitchen islands.
Freezers
Modular 3000 Series

Optimal Environment
Models are equipped with our convection cooling system, keeping your frozen products preserved to perfection. The U-Select® Control allows you to quickly set your model to our pre-programmed Polar mode; or you can simply adjust the temperature based on your personal preference, ranging from -5°F to 5°F.

LED Theater Lighting
Black interiors gently illuminate with LED theater lighting, then softly dim off when the door is closed. Light brightness can be set to low, medium, or high.

Flexible Storage
Three full-extension, durable vinyl coated freezer baskets are removable for easy cleaning and can accommodate large pizza boxes and one-gallon containers, with additional space for more storage.
Our Combo® Models combine refrigeration and crescent ice makers, or refrigeration and freezer capabilities, into single compact, space-saving models. Varying sizes and configurations offer many options—whether you’re looking for an all-in-one unit to serve your extended-stay guests, or to be the refreshment center when entertaining. Combo® Models give you the option to bring together refrigeration with either an abundant ice supply or with freezer capabilities, all in the convenience of a single unit.

All Combo® Models offer the following features:

**Optimal Environment**
Models actively maintain a stable temperature to ensure proper preservation.

**Patented Frost-Free Technology**
Patented frost-free technology ensures your product will stay free of interior frost build-up.
Optimal Environment

The CO1224F and 1224RF offer our passive cooling system and our Digital Touch Pad Control, allowing you to easily set the refrigerator temperature, ranging from 34°F - 45°F. The freezer compartment in the 1224RF maintains a temperature ranging from 0°F - 5°F. The CO29F offers our Mechanical Dial Control, allowing you to keep your contents preserved and accessible for all your entertaining needs.

Ice Production and Capacity

The CO1224F and CO29F provide a daily ice production of up to 8 lbs, and stores up to 8 lbs of crescent ice cubes, ensuring you will always have ice readily available. Crescent ice cube dimensions are: ½" W x ¾" H x 2 ½" L.

ADA Height Compliant

The CO29F is designed to install under the federally mandated requirement of a 34" high countertop.

LED Lighting

The CO1224F and 1224RF offer white interiors and LED lighting that illuminates your contents beautifully.
ADA Series

For ADA Series Glass Door Refrigerator data, see page 51.

For ADA Series Solid Door Refrigerator data, see page 59.

For ADA Series Crescent Ice Maker data, see page 43.
Outdoor Series

Optimal Environment
The 1215RSOD and 1224RSOD offer our Digital Touch Pad Control, allowing you to easily set the refrigerator temperature, ranging from 34°F - 45°F. The CLR1215SOD also offers our Digital Touch Pad Control, and the BI1215SSOD offers an On/Off switch for easy control.

LED Lighting
The 1215RSOD, 1224RSOD, and CLR1215SOD offer white interiors and LED lighting illuminating your food, beverages, and ice for easy access after the sun sets and the party continues.

Easy Installation
The BI1215SSOD does not require a drain, making for a quick and easy installation. Because the CLR1215SOD requires a drain, they are shipped with a factory installed drain line. If you do not have access to a gravity drain, simply order your CLR1215SOD with our sealed and permanently lubricated P60 drain pump factory installed.

Durable Outdoor Design
All Outdoor Series models are fully wrapped in stainless steel to protect from harsh outdoor elements and are UL rated and deemed suitable for outdoor use. Models are equipped with our robust professional door handle (diameter: 1 ¼”) to match outdoor design and style.

36” Glass Door Refrigerator / Clear Ice Machine
A 3018RGL Glass Door Refrigerator with a 3018CLR Clear Ice Machine is the perfect combination for entertaining friends and family.

36” Solid Door Refrigerator / Clear Ice Machine
A 3018R Solid Door Refrigerator is a perfect companion to a 3018CLR Clear Ice Machine.

36” Wine Captain® Model / Solid Door Refrigerator
The perfect centerpiece of any kitchen is a 3018WC Wine Captain® Model matched with a 3018R Solid Door Refrigerator.

36” Wine Captain® Model / Clear Ice Machine
Combine a 3018WC Wine Captain® Model when it’s time to uncork that perfect cabernet with a 3018CLR Clear Ice Machine for cocktail hour.

36” Glass Door Refrigerator / Solid Door Refrigerator
Pair a 3018RGL Glass Door Refrigerator with a 3018R Solid Door Refrigerator for the best of both worlds.

Installed: 36” Custom Model (3018WCINT & 3018CLRINT with Ice Flange Kit)
36” Custom Models
Modular 3000 Series

Expand the possibilities with our Modular 3000 Series 36” Custom Models. The Custom Flange Kits allow for the creation of a personalized configuration of two Modular 3000 Series 18” units with a seamless installation. The Custom Ice Flange Kits allow you to combine a Modular 3000 Series 18” Clear Ice Machine with any other Modular 3000 Series 18” unit for a truly customized 36” application. This allows for a greater degree of personalized application. Our Modular 3000 Series 36” Custom Models provide the ultimate in personalized point-of-use refrigeration. View all 36” Custom Model configurations on the left.
We are the leading energy efficiency innovator, setting the standard for the premium appliance industry. Where applicable, many of our products meet, and in many cases exceed, the current ENERGY STAR® standards. To receive an ENERGY STAR® rating, a refrigerator must operate 10% more efficiently than the Federal standard. ENERGY STAR® is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy helping us all save money to protect the environment through energy efficient products and practices.

Sustainability is a priority at U-Line. We continue to work on minimizing our carbon footprint by recycling and reusing plastics, shipping containers, mixed metals, cardboard, paper, hydraulic oil, batteries, bulbs, and refrigerants at our factory.

Engineered for Efficiency

*Models with a lock option must be ordered hinge specific.
**Deemed suitable for outdoor use by UL.
UL Listing only applies to 115 v models.
CUSTOMER CARE
With over 125 combined years of U-Line product experience, our Customer Care group is equipped with the knowledge and skills to find a solution for you, and fast. Our sophisticated facility is equipped to handle any service request. With live products readily available for diagnostics, our Customer Care group can walk you through a solution while doing it themselves on the same model. Our efficient call center management system ensures minimal wait time for consumers. We believe product support should be quick, simple, and frustration-free.

WARRANTY INFORMATION
FULL ONE YEAR WARRANTY
(TWO YEARS ON MODULAR 3000 SERIES)
From the date of purchase, U-Line covers all parts and labor to repair or replace any product, sold and serviced within the United States and Canada, which proves to be defective in materials or workmanship.

FULL FIVE YEAR WARRANTY
From the date of purchase, U-Line covers all parts and labor to repair or replace any components that prove to be defective in the sealed system (consisting of the compressor, condenser, evaporator, bypass valve, dryer, and connecting tube) for all products sold and serviced within the United States and Canada. Visit U-Line.com for complete warranty details.
